

MATTHEW BEARDWELL

Watford, Hertfordshire · mbeardwell.com · contact@mbeardwell.com

Professional Summary

SOC Analyst Trainee with hands-on cybersecurity experience and a First-Class BSc in Computer Science. Strong in SIEM, OSINT, and security automation, applying advanced threat detection techniques in real-world lab scenarios. Ranked in the top 2% globally on TryHackMe (114 completed rooms, 16 badges). Currently preparing for CompTIA Security+ to strengthen expertise in SOC workflows and incident response.

Technical Skills

- **Security and Threat Detection:** SIEM (Splunk), Windows Event Logs, Sysmon, OSINT
- **Programming and Scripting:** Python, Bash, PowerShell, C, ARM Assembly
- **Systems and Administration:** Windows (Group Policy, Sysmon), Linux (Security Hardening), Virtualisation
- **Incident Response and Monitoring:** Wireshark, TCP/IP, Firewalls, Linux Hardening

Cybersecurity Projects

- TCP Port Scanner**2025
- Developed a high-performance Python-based network scanner with multithreading, improving efficiency in identifying live hosts for security assessments and penetration testing. Demonstrates strong skills in automation, network scanning, and multithreaded programming.
Technologies: Python, Multithreading, Network Scanning
Project Link: <https://github.com/mbeardwell/simple-port-scanner>
- ARM Floating Point Emulation** · Bachelor's Thesis2023
- Designed and implemented a dynamic code modification technique that intercepts processor instructions at runtime, demonstrating low-level reverse engineering and malware analysis applications.
Technologies: C, ARM Assembly, Dynamic Binary Instrumentation
Project Link: <https://github.com/mbeardwell/arm-fp-emu>

Professional Experience

- SOC Training and Labs** · TryHackMe (Self-Led Learning)Feb 2022 – Present
- Developed hands-on expertise in SIEM, threat hunting, and security automation through 114 cybersecurity labs (Top 2% globally). Applied log analysis, threat detection, and SOC tools in simulated security operations, mirroring real-world threat-hunting scenarios.
- Retail Assistant** · Max Spielmann (Prince's Trust Work Placement)Feb 2024 – Mar 2024
- Processed transactions, assisted customers with self-service kiosks and mobile integration, and ensured secure deletion of processed passport photos.
- Private Maths Tutor** · FreelanceSep 2016 – Nov 2019
- Delivered structured problem-solving sessions, strengthening logical thinking, and adapted teaching methods to improve communication skills.
- Research and Documentation Intern** · Indo UK Institute of HealthJun 2017 – Aug 2017
- Conducted market research on employee benefits and strategic partnerships, providing executives with key insights. Edited and reformatted high-level strategic documents that shaped discussions on a billion-pound healthcare initiative.

Education and Certifications

- BSc Computer Science**King's College London (1st Class Honours)Sep 2018 – Jun 2023
- A-Levels**King's College London Mathematics School (4 A*s)Sep 2016 – Jun 2018
- GCSE and IGCSEs**9 A*s, 1 B (including A* in Computing, Maths, and the Sciences)Sep 2014 – Jun 2016
- Certifications**CompTIA Security+(In Progress)
- TryHackMe 'Introduction to Cyber Security'Feb 2024
- TryHackMe 'Pre Security'Apr 2022
- Prince's Trust Level 2 Certificate (12-week employability program)Jan 2024 – Apr 2024
