

Matthew Beardwell

Watford, Hertfordshire · contact@mbeardwell.com · mbeardwell.com
[LinkedIn](#) · [GitHub](#) · [TryHackMe](#)

Professional Summary

Security Analyst with strengths in digital forensics and OSINT. Experience includes ARM instruction patching and binary analysis. Recovered deleted data and artefacts in both lab-based and real-world contexts. Completed 116 hands-on labs (~100 hrs, Top 2% TryHackMe) and earned a First-Class BSc in Computer Science from King's College London. Currently preparing for CompTIA Security+.

Technical Skills

- **Scripting and Programming:** Python, Bash, C, ARM Assembly
- **Networking:** Wireshark, TCP/IP analysis, PCAP inspection
- **Forensics:** Autopsy, dd, foremost, photorec, scalpel; disk image recovery and file carving
- **OSINT:** Identity/location tracing, metadata correlation, client investigations, toolkit authoring
- **Reverse Engineering:** GDB, IDA Free, Ghidra, radare2, ARM runtime patching

Cybersecurity Projects

ActiveReconLite · *Python Port Scanner* FEB 2025 – MAR 2025
Built a Python-based TCP connect port scanner using multiprocessing. Outperforms Nmap in some cases by 60x; scanned 65k ports in 5s (vs Nmap's 5m). It validates user input, grabs banners, and writes results to a file. Demonstrates automation, socket programming, and parallel scanning. github.com/mbeardwell/active-recon-lite

Location and Identity Resolution from Minimal Public Signals · *OSINT Case Study* APR 2025
Tracked real-world identity from anonymised YouTube uploads using public data. Shows attacker thinking, threat profiling, and privacy risk awareness. Demonstrates threat intelligence process fundamentals: collection, enrichment, analysis, and attribution based on minimal public indicators. github.com/mbeardwell/osint-i3-case-study

UK Person-centric OSINT Toolkit JUN 2025
Curation of UK-only, legal person-focused OSINT resources for investigative use. Featured by "Learn Cybersecurity" Telegram channel (27k subscribers); 100+ LinkedIn/Substack clicks in 1 week. github.com/mbeardwell/uk-personal-osint-toolkit

Faster Dynamically Instrumented Programs · *Bachelor's Thesis* OCT 2022 – MAY 2023
Developed PoC mimicking evasive malware behaviour by changing programs in memory at the lowest level. github.com/mbeardwell/arm-fp-emu

Professional Experience

OSINT Investigator · *Freelance & Self-Led* MAY 2023 – APR 2025
Conducted multiple open-ended OSINT investigations for clients, including one extensively documented case study. Also independently executed identity and geolocation tracing projects.

Maths Tutor · *Freelance* SEP 2016 – NOV 2019
Tutored students aged 9–13 in maths (11+ and GCSE prep).

Research and Documentation Intern · *Indo UK Institute of Health* JUN 2017 – AUG 2017
Researched benefits/partnerships and edited exec-level strategy docs for a billion-pound healthcare initiative.

Education and Certifications

Security Training · *TryHackMe* FEB 2022 – PRESENT
Completed 116 hands-on labs (~100 hrs) that included digital forensics, OSINT, and reverse engineering. Ranked in the Top 2% globally.

BSc (Hons) CS · <i>King's College London</i>	First-Class	SEP 2018 – JUL 2023
A-Levels · <i>King's Maths School</i>	A* A* A* A*	SEP 2016 – JUL 2018

CompTIA	Security+	(IN PROGRESS)
TryHackMe	Intro to Cyber Security	FEB 2024
Security Blue Team	Intro to OSINT	JUN 2025
TryHackMe	Pre-Security	APR 2022
Prince's Trust	TEAM (12-week programme incl. First Aid)	JAN 2024 – APR 2024
