Professional Summary

SOC Analyst Trainee with hands-on cybersecurity experience and a First-Class BSc in Computer Science. Strong in SIEM, OSINT, and security automation, applying advanced threat detection techniques in real-world lab scenarios. Ranked in the top % globally on TryHackMe (completed rooms, badges). Currently preparing for CompTIA Security+ to strengthen expertise in SOC workflows and incident response.

Technical Skills

- **Security and Threat Detection:** SIEM (Splunk), Sysmon, Windows Logs, OSINT
- **Scripting and Programming:** Python, Bash, PowerShell, C, ARM ASM
- **Systems Admin:** Group Policy, Linux Hardening, Virtualisation
- **Incident Response:** Wireshark, TCP/IP, Firewalls

Cybersecurity Projects

'ActiveReconLite'

Feb 2025 – Mar 2025

Developed a high-performance Python-based network scanner with multithreading, achieving a 98% speed improvement vs 'nmap' on localhost full-port scans (5s vs 304s, 65,535 ports); validated with 'time' benchmarks assisting in identifying live hosts for security assessments and penetration testing. Demonstrates strong skills in automation, network scanning, and multithreaded programming.

github.com/mbeardwell/active-recon-lite

Technologies: Python, Multithreading, Network Scanning

'Faster Dynamically Instrumented Programs' · Bachelor's Thesis

Oct 2022 – May 2023

Designed and implemented a dynamic code modification technique that intercepts processor instructions at runtime, demonstrating low-level reverse engineering and malware analysis applications.

github.com/mbeardwell/arm-fp-emu

Technologies: C, ARM Assembly, Dynamic Binary Instrumentation

Professional Experience

Building expertise during ongoing health recovery. Not currently available for roles. Open to future opportunities.

SOC Training and Labs · TryHackMe (Self-Led Learning)

Feb 2022 – Present

Developed hands-on expertise in SIEM, threat hunting, and security automation through cybersecurity labs (Top % globally). Applied log analysis, threat detection, and SOC tools in simulated security operations, mirroring real-world threat-hunting scenarios.

Retail Assistant · Max Spielmann (Prince's Trust Work Placement)

Feb 2024 – Mar 2024

Processed transactions, assisted customers with self-service kiosks and mobile integration, and ensured secure deletion of processed passport photos.

Private Maths Tutor · Freelance

Sep 2016 – Nov 2019

Delivered structured problem-solving sessions, strengthening logical thinking, and adapted teaching methods to improve communication skills.

Research and Documentation Intern · Indo UK Institute of Health

Jun 2017 – Aug 2017

Conducted market research on employee benefits and strategic partnerships, providing executives with key insights. Edited and reformatted high-level strategic documents that shaped discussions on a billion-pound healthcare initiative.

Education and Certifications

BSc Computer Science

King's College London (1st Class Honours)

Sep 2018 – Jun 2023

A-Levels

King's College London Mathematics School (4 A*s)

Sep 2016 – Jun 2018

GCSE and IGCSEs

9 A*s, 1 B (incl. A* in Computing, Maths, Sciences)

Sep 2014 – Jun 2016

Certifications

CompTIA Security+

(In Progress)

TryHackMe 'Introduction to Cyber Security'

Feb 2024

TryHackMe 'Pre Security'

Apr 2022

Prince's Trust Level 2 (12-week employability program)

Jan 2024 – Apr 2024
