Professional Summary

SOC Analyst Trainee with hands-on cybersecurity experience and a First-Class BSc (Hons) in Computer Science. Skilled in HUMINT-style OSINT investigative techniques, now applying this toward infosec workflows. Ranked in the top 2% globally on TryHackMe (114 completed rooms, 16 badges).

Currently preparing for CompTIA Security+ to strengthen expertise in SIEM, SOC operations, and incident response.

Technical Skills

- **Security and Threat Detection:** SIEM (Splunk), Sysmon, Windows Logs, OSINT
- **Scripting and Programming:** Python, Bash, PowerShell, C, ARM ASM
- **Systems Admin:** Group Policy, Linux Hardening, Virtualisation
- **Incident Response:** Wireshark, TCP/IP, Firewalls

Cybersecurity Projects

'ActiveReconLite' · *Python Port Scanner*

FEB 2025 – MAR 2025

Built a Python-based TCP connect port scanner using multiprocessing. Scanned 65k ports in 5s (vs Nmap's 5m). It validates user input, grabs banners, and writes results to a file. Demonstrates automation, socket programming, and parallel scanning.

github.com/mbeardwell/active-recon-lite

'Location and Identity Resolution from Minimal Public Signals' · *OSINT Case Study*

APR 2025

Tracked real-world identity from anonymised YouTube uploads using public data. Shows attacker thinking, threat profiling, and privacy risk awareness.

github.com/mbeardwell/osint-i3-case-study

'Faster Dynamically Instrumented Programs' · *Bachelor's Thesis*

OCT 2022 – MAY 2023

Built a runtime patching tool on ARM Linux to redirect processor instructions in memory. Mirrors techniques used in evasive malware – useful for SOC detection and threat hunting.

Professional Experience

Building expertise during ongoing health recovery. Not currently available for roles. Open to future opportunities.

SOC Training and Labs · *TryHackMe (Self-Led Learning)*

FEB 2022 – PRESENT

Developed hands-on expertise in SIEM, threat hunting, and security automation through 114 cybersecurity labs (Top 2% globally). Applied log analysis, detection logic, and SOC tooling in simulation labs.

Retail Assistant · *Max Spielmann (Prince's Trust Work Placement)*

FEB 2024 – MAR 2024

Processed transactions, assisted customers with self-service kiosks and mobile integration, and ensured secure deletion of processed passport photos.

Private Tutor · *Freelance*

SEP 2016 – NOV 2019

Supported children with pre-GCSE homework, primarily in maths; adapted explanations to varying ability levels in informal settings.

Research and Documentation Intern · *Indo UK Institute of Health*

JUN 2017 – AUG 2017

Conducted market research on employee benefits and strategic partnerships, providing executives with key insights. Edited and reformatted high-level strategic documents that shaped discussions on a billion-pound health-care initiative.

Education and Certifications

BSc (Hons) CS · *King's College London*

1st Class

2018 – 2023

A-Levels · *King's Maths School*
