

MATTHEW BEARDWELL

Watford, Hertfordshire · mbeardwell.com · contact@mbeardwell.com
[LinkedIn](#) · [GitHub](#) · [TryHackMe](#)

Professional Summary

SOC Analyst Trainee with hands-on cybersecurity experience and a First-Class BSc in Computer Science. Strong in SIEM, OSINT, and security automation, applying advanced threat detection techniques in real-world lab scenarios. Ranked in the top 2% globally on TryHackMe (114 completed rooms, 16 badges). Currently preparing for CompTIA Security+ to strengthen expertise in SOC workflows and incident response.

Technical Skills

- **Security and Threat Detection:** SIEM (Splunk), Sysmon, Windows Logs, OSINT
- **Scripting and Programming:** Python, Bash, PowerShell, C, ARM ASM
- **Systems Admin:** Group Policy, Linux Hardening, Virtualisation
- **Incident Response:** Wireshark, TCP/IP, Firewalls

Cybersecurity Projects

‘ActiveReconLite’ Feb 2025 – Mar 2025
Developed a high-performance Python-based network scanner with multithreading, achieving a 98% speed improvement vs ‘nmap’ on localhost full-port scans (5s vs 304s, 65,535 ports); validated with ‘time’ benchmarks assisting in identifying live hosts for security assessments and penetration testing. Demonstrates strong skills in automation, network scanning, and multithreaded programming.

github.com/mbeardwell/active-recon-lite
Technologies: Python, Multithreading, Network Scanning

‘Faster Dynamically Instrumented Programs’ · Bachelor’s Thesis Oct 2022 – May 2023
Designed and implemented a dynamic code modification technique that intercepts processor instructions at runtime, demonstrating low-level reverse engineering and malware analysis applications.

github.com/mbeardwell/arm-fp-emu
Technologies: C, ARM Assembly, Dynamic Binary Instrumentation

Professional Experience

- Currently on an extended health-related pause; actively preparing for near-term return to cybersecurity.
- SOC Training and Labs** · TryHackMe (Self-Led Learning) Feb 2022 – Present
Developed hands-on expertise in SIEM, threat hunting, and security automation through 114 cybersecurity labs (Top 2% globally). Applied log analysis, threat detection, and SOC tools in simulated security operations, mirroring real-world threat-hunting scenarios.
- Retail Assistant** · Max Spielmann (Prince’s Trust Work Placement) Feb 2024 – Mar 2024
Processed transactions, assisted customers with self-service kiosks and mobile integration, and ensured secure deletion of processed passport photos.
- Private Maths Tutor** · Freelance Sep 2016 – Nov 2019
Delivered structured problem-solving sessions, strengthening logical thinking, and adapted teaching methods to improve communication skills.
- Research and Documentation Intern** · Indo UK Institute of Health Jun 2017 – Aug 2017
Conducted market research on employee benefits and strategic partnerships, providing executives with key insights. Edited and reformatted high-level strategic documents that shaped discussions on a billion-pound healthcare initiative.

Education and Certifications

BSc Computer Science	King’s College London (1st Class Honours)	Sep 2018 – Jun 2023
A-Levels	King’s College London Mathematics School (4 A*s)	Sep 2016 – Jun 2018
GCSE and IGCSEs	9 A*s, 1 B (incl. A* in Computing, Maths, Sciences)	Sep 2014 – Jun 2016
Certifications		
CompTIA Security+		(In Progress)
TryHackMe ‘Introduction to Cyber Security’		Feb 2024
TryHackMe ‘Pre Security’		Apr 2022
Prince’s Trust Level 2 (12-week employability program)		Jan 2024 – Apr 2024
