

Matthew Beardwell

Watford, Hertfordshire · contact@mbeardwell.com

Professional Summary

Technical graduate with a First-Class BSc in Computer Science from King’s College London. Degree-level foundations in operating systems, networking, cryptography, and information security. Experienced in Python and Bash automation and Windows and Linux administration. Completed 127 hands-on technical labs (Top 2% globally on TryHackMe) covering network protocols, log analysis, and diagnostics.

Technical Skills

- **Operating Systems:** Windows administration, Linux administration, command-line tooling
- **Networking:** TCP/IP, DNS, HTTP, SMTP, IMAP, POP3, FTP, Wireshark
- **Scripting:** Python, Bash
- **Diagnostics:** Log analysis, disk imaging, file recovery

Technical Projects

ActiveReconLite · *Python Networking Tool* FEB 2025 – MAR 2025
Built a Python-based TCP connect port scanner using multiprocessing. Validates user input, grabs banners, and writes results to a file. Demonstrates socket programming, argparse, regex, and parallel scanning.
github.com/mbeardwell/active-recon-lite

Faster Dynamically Instrumented Programs · *Bachelor’s Thesis* OCT 2022 – MAY 2023
Developed a proof-of-concept tool that modifies running programs in memory at the instruction level using ARM assembly. Demonstrates low-level systems programming, runtime process management, and binary analysis.

Professional Experience

Research Analyst · *Freelance* APR 2025
Delivered technical analysis and reporting for clients on open-ended investigative briefs. Managed projects independently from scoping through to documented output. Strong written and verbal communication of technical findings to non-technical stakeholders.

Maths Tutor · *Freelance* SEP 2016 – NOV 2019
Tutored students aged 9–13 in maths (11+ and GCSE prep).

Research and Documentation Intern · *Indo UK Institute of Health* JUN 2017 – AUG 2017
Researched software alternatives and contributed to strategy documentation used in executive-level meetings.

Education and Certifications

Technical Training · *TryHackMe* FEB 2022 – PRESENT
Completed 127 hands-on labs (~103 hrs est.) covering Windows and Linux OS administration, PowerShell, DNS, network protocols, network troubleshooting, log analysis, disk imaging and file recovery. Ranked in the Top 2% globally.

BSc (Hons) CS · <i>King’s College London</i>	First-Class	SEP 2018 – AUG 2023
A-Levels · <i>King’s Maths School</i>	A* A* A* A*	SEP 2016 – AUG 2018

CompTIA	Security+	(IN PROGRESS)
Security Blue Team	Intro to OSINT	JUN 2025
The King’s Trust	TEAM (12-week programme incl. First Aid)	JAN 2024 – APR 2024
