

MATTHEW BEARDWELL

Watford, Hertfordshire · mbeardwell.com · contact@mbeardwell.com

Professional Summary

SOC Analyst Trainee with hands-on cybersecurity experience and a First-Class BSc in Computer Science. Strong in SIEM, OSINT, and security automation, applying advanced threat detection techniques in real-world lab scenarios. Ranked in the top 2% globally on TryHackMe (114 completed rooms, 16 badges). Currently preparing for CompTIA Security+ to strengthen expertise in SOC workflows and incident response.

Technical Skills

- **Security and Threat Detection:** SIEM (Splunk), Windows Event Logs, Sysmon, OSINT
- **Programming and Scripting:** Python, Bash, PowerShell, C, ARM Assembly
- **Systems and Administration:** Windows (Group Policy, Sysmon), Linux (Security Hardening), Virtualisation
- **Incident Response and Monitoring:** Wireshark, TCP/IP, Firewalls, Linux Hardening

Cybersecurity Projects

TCP Port Scanner

2025

Developed a high-performance Python-based network scanner with multithreading, improving efficiency in identifying live hosts for security assessments and penetration testing. Demonstrates strong skills in automation, network scanning, and multithreaded programming.

Technologies: Python, Multithreading, Network Scanning

github.com/mbeardwell/simple-port-scanner

ARM Floating Point Emulation · Bachelor's Thesis

2023

Designed and implemented a dynamic code modification technique that intercepts processor instructions at runtime, demonstrating low-level reverse engineering and malware analysis applications.

Technologies: C, ARM Assembly, Dynamic Binary Instrumentation

Professional Experience

SOC Training and Labs · TryHackMe (Self-Led Learning)

Feb 2022 – Present

Developed hands-on expertise in SIEM, threat hunting, and security automation through 114 cybersecurity labs (Top 2% globally). Applied log analysis, threat detection, and SOC tools in simulated security operations, mirroring real-world threat-hunting scenarios.

Retail Assistant · Max Spielmann (Prince's Trust Work Placement)

Feb 2024 – Mar 2024

Processed transactions, assisted customers with self-service kiosks and mobile integration, and ensured secure deletion of processed passport photos.

Private Maths Tutor · Freelance

Sep 2016 – Nov 2019

Delivered structured problem-solving sessions, strengthening logical thinking, and adapted teaching methods to improve communication skills.

Research and Documentation Intern · Indo UK Institute of Health

Jun 2017 – Aug 2017

Conducted market research on employee benefits and strategic partnerships, providing executives with key insights. Edited and reformatted high-level strategic documents that shaped discussions on a billion-pound healthcare initiative.

Education and Certifications

BSc Computer Science	King's College London (1st Class Honours)	Sep 2018 – Jun 2023
A-Levels	King's College London Mathematics School (4 A*s)	Sep 2016 – Jun 2018
GCSE and IGCSEs	9 A*s, 1 B (including A* in Computing, Maths, and the Sciences)	Sep 2014 – Jun 2016
Certifications	CompTIA Security+	(In Progress)
	TryHackMe 'Introduction to Cyber Security'	Feb 2024
	TryHackMe 'Pre Security'	Apr 2022
	Prince's Trust Level 2 Certificate (12-week employability program)	Jan 2024 – Apr 2024
